Presentations Guidelines

Please use the following guidelines <u>for preparing your video</u>:

- **Full Papers (Special Session Papers and Regular Session Papers):**
- **Duration: 15 minutes**
- **File size limit: 100MB file**
- **File format: mp4**
- **Minimum height: 480 pixels**
- **Aspect ratio: 16:9**

<u>For the presentation slides</u>, you can use PowerPoint or any of the LaTeX packages. This must be converted to a PDF file and uploaded. The **file size limit** for your slides is **10MB**.

The above specifications on video files will be checked at the time of submission and files not meeting them will be prevented from being uploaded.

Except for the above duration and digital constraints, the form of the presentation is left free. We suggest that you include the title of the paper, the authors, and a mention to ITSC 2020 in the opening frames of the video as well as presentation slides.

Instructions for uploading the two files have been sent to authors via two emails. The links included in the emails will take authors directly to the submission page where they can upload the video and presentation files. Alternatively, the corresponding authors can login to their workspace and follow the links to upload (or re-upload) the video presentation file and the presentation file until August 31st, 2020.

Authors are kindly asked to start preparing early, as uploading the files might need a long time to transfer.
